Chardobato, Bhaktapur

**In partial fulfillment of the requirements for the Bachelor of Computer
Application**

March 2026

INTERNSHIP CERTIFICATION

AUDIO SHOP NEPAL

Boudha, Kathmandu, Nepal

Contact: +977 9803130365

TO WHOM IT MAY CONCERN

This is to certify that Mr. Aashish Lama has worked with Audio Shop Nepal as a **WordPress Front-End Developer** from May 10, 2025 to August 7, 2025.

During his tenure, he was involved in front-end website development and content management using WordPress. His key responsibilities included:

- Designing and updating website pages using WordPress (Elementor/WPBakery)
- Managing product listings and website content
- Customizing themes, layouts, and UI elements
- Image optimization and content formatting
- Assisting in SEO optimization (meta titles, descriptions, keywords)
- Supporting overall website maintenance and updates

He demonstrated a good understanding of web development concepts, creativity in design, and a strong willingness to learn. His performance during his time with us was found to be satisfactory.

We wish him all the best for his future endeavors.

Authorized Signature

Name: Roshan Bastakoti

Designation: CEO

ACKNOWLEDGEMENT

I would like to extend my heartfelt appreciation to everyone who supported and guided me during my internship at **Audio Shop Nepal Pvt. Ltd.**

First and foremost, I am sincerely thankful to my internship supervisor, **Mr. Sushil Nepal**, whose expert guidance, constructive feedback, and continuous encouragement played a vital role in helping me navigate and complete my internship journey. His mentorship greatly enhanced my learning experience.

I am equally grateful to my internship mentor, **Mr. Roshan Bastakoti**, for giving me the opportunity to be a part of this project and for his steady support throughout. His practical insights and professional experience were instrumental in shaping my approach and understanding of real-world applications in the field.

I would also like to express my sincere thanks to **Ms. Susan Sunuwar**, the program coordinator at Swastik College, for facilitating the internship process and acting as a strong link between the college and industry. Her efforts ensured a seamless and enriching internship experience.

My gratitude also extends to the Department of Computer Science and Information Technology at Swastik College. The academic foundation and technical skills provided by the faculty have been essential in applying my knowledge to practical challenges during this internship.

Lastly, I am thankful to Audio Shop Nepal Pvt. Ltd. and my fellow team members for creating such a collaborative and motivating work environment. Their support and teamwork allowed me to apply my learning in meaningful ways and grow both professionally and personally.

Thank you all once again for your invaluable support and encouragement throughout this memorable journey.

Sincerely,

Aashish Lama

TU Exam Roll No: 113102041

ABSTRACT

This report provides a detailed overview of my internship at **Audio Shop Nepal Pvt. Ltd.**, where I specialized in **WordPress Frontend Development** for their company website. During my internship, I was actively involved in designing and customizing WordPress themes to create a visually appealing and user-friendly website tailored to the company's brand and products. I worked extensively with **HTML, CSS, and JavaScript** to implement dynamic content and interactive features, ensuring seamless user interaction and responsive design across desktops, tablets, and mobile devices.

My role included integrating **WordPress plugins** to enhance site functionality, configuring menus and widgets for optimized navigation, and managing page layouts using WordPress's **block editor** and custom page templates. I also focused on improving site performance and user experience by optimizing frontend assets, ensuring fast loading times, and maintaining cross-browser compatibility.

Through this experience, I developed a strong understanding of **WordPress architecture**, theme hierarchy, and template system, and gained practical exposure to maintaining and updating a live website in a collaborative team environment. This internship significantly strengthened my skills in **frontend web development, responsive design, and WordPress customization**, preparing me to contribute effectively to real-world web projects.

Chapter 1: Introduction

1.1. Introduction

Frontend development is a crucial aspect of modern web applications, focusing on creating responsive, user-friendly, and visually appealing interfaces. It plays an important role in enhancing user experience by ensuring smooth interaction between users and websites. Using technologies such as HTML, CSS, and basic JavaScript, along with platforms like WordPress, frontend development enables the creation of dynamic and well-structured web pages. Its emphasis on usability, design consistency, and performance makes it essential for developing effective and engaging websites.

During my internship at **Audio Shop Nepal Pvt. Ltd.**, I had the opportunity to work on WordPress-based projects with a primary focus on front-end development, content management, and website maintenance. This experience allowed me to apply my academic knowledge in practical scenarios by designing and updating website pages using WordPress page builders, customizing themes and layouts, and managing website content including text, images, and media. I gained hands-on experience in creating responsive and visually consistent web pages, improving navigation structure, and ensuring proper layout across different devices. I also worked on optimizing images, formatting content, and supporting overall website performance. Additionally, I contributed to enhancing user experience by maintaining consistency in design and improving the usability of different sections of the website. Through this internship, I developed a strong understanding of WordPress-based front-end development and improved my ability to build user-friendly, responsive, and well-structured websites, preparing me for real-world web development projects.

1.2. Problem Statement

Throughout my internship at **Audio Shop Nepal Pvt. Ltd.**, the primary challenge was to develop an efficient and user-friendly frontend for a website using WordPress. My responsibilities focused on designing and customizing themes, creating responsive page layouts, and ensuring smooth user interaction across the site. The frontend needed to provide seamless navigation, visually appealing design, and proper content organization while integrating effectively with WordPress plugins and backend functionalities. I worked on customizing themes using HTML, CSS, and basic JavaScript to meet project

requirements, as well as optimizing the website for performance and responsiveness across different devices. The challenge was to create clean, consistent, and maintainable designs that enhanced user experience while supporting the overall functionality of the website.

1.3. Objectives

The primary goal of this internship is to gain practical exposure to frontend development with Wordpress, bridging the gap between academic learning and real-world application. The key objectives of this internship are outlined as:

- i. To gain hands-on experience in frontend development using WordPress, including themes, plugins, and page builders.
- ii. To understand the process of designing and customizing website layouts using HTML, CSS, and basic JavaScript within WordPress.
- iii. To develop skills in content management, including organizing and updating text, images, and media through the WordPress dashboard for well-structured web pages.
- iv. To implement dynamic content features, using WordPress plugins, widgets, and shortcodes to enhance website functionality and user experience.
- v. To improve collaboration, communication, and problem-solving skills, by working in a team environment and contributing to real-time website development and updates..
- vi. To learn industry-relevant practices, including basic SEO optimization, responsive design principles, and website maintenance for better performance and usability.

1.4 Scope and Limitations

1.4.1 Scope

The scope of my internship at **Audio Shop Nepal Pvt. Ltd.** centered on frontend development using Wordpress and its content management system. My responsibilities included:

- i. Designing and customizing website layouts using WordPress themes and page builders to create visually appealing interfaces.
- ii. Creating and managing website content, including pages, posts, images, and menus for effective content presentation.
- iii. Customizing themes using HTML, CSS, and basic JavaScript to enhance design and user experience.

- iv. Implementing dynamic content features using WordPress plugins, widgets, and shortcodes to improve functionality and interactivity.
- v. Optimizing website performance, responsiveness, and cross-browser compatibility to ensure a smooth user experience.
- vi. Participating in project meetings, collaborating with team members, and reviewing designs to ensure adherence to best practices and industry standards.

The internship provided valuable hands-on experience in frontend development using WordPress, helping me strengthen my understanding of website design, user interface development, and working within a professional web development environment.

1.4.2 Limitations

While the internship provided a rich and hands-on experience, there were certain limitations encountered:

- i. **Time Constraints:** Due to the limited duration of the internship, I was not able to explore all stages of the website development lifecycle in depth, particularly advanced design improvements and long-term maintenance processes.
- ii. **Scope of Work:** My work was mainly focused on a single company website, concentrating on front-end development, content management, and UI improvements. This limited exposure to multiple projects and broader development environments.
- iii. **Technology Exposure:** While I gained solid experience working with WordPress, themes, and frontend technologies like HTML, CSS, and basic JavaScript, my exposure to advanced tools, frameworks, or custom plugin development was limited due to the focused nature of the project.
- iv. **Complexity of Projects:** Since I worked on one main website that was already partially developed, there were fewer opportunities to build features from scratch or experiment with a wider range of design and customization options.

1.5 Report Organization

This report is structured into several chapters, each providing a detailed account of my internship experience and the work I undertook. The organization is as follows:

- i. **Chapter 1: Introduction** - Provides an overview of the internship project, including its objectives, scope, limitations, and the skills developed during the internship.
- ii. **Chapter 2: Organization Details and Literature Review** - Describes the host organization, Audio Shop Nepal Pvt. Ltd., its areas of work, and a review of relevant Frontend development practices.
- iii. **Chapter 3: Internship Activities** - Outlines the tasks performed, the responsibilities handled, weekly progress updates, and implementation details of the frontend development and WordPress customization .
- iv. **Chapter 4: Conclusion and Learning Outcomes** - Summarizes the key learnings, skills acquired, and achievements during the internship, along with personal reflections on the experience of working on a single main project.

Chapter 2: Organization Details and Literature Review

2.1 Introduction to Organization

Audio Shop Nepal Pvt. Ltd. is a dynamic and customer-focused company based in Nepal, specializing in audio equipment sales, installation services, and website management. With a vision to provide seamless audio solutions and enhance the online presence of the business, the company is committed to delivering user-friendly products and services that cater to customer needs while maintaining a strong focus on design, usability, and functionality.

The company embraces modern web development practices to manage its online platforms effectively. By prioritizing collaboration, creativity, and customer satisfaction, **Audio Shop Nepal** ensures that its website and digital services are tailored to meet specific business and customer requirements. Its technical environment includes tools and platforms such as WordPress, HTML, CSS, JavaScript, and relevant plugins, enabling the team to maintain a robust, responsive, and visually appealing website.

At **Audio Shop Nepal**, a culture of continuous improvement and innovation is encouraged, where employees and interns can explore new ideas, contribute to real-world projects, and receive guidance from experienced professionals. This collaborative environment allows for the development of frontend, design, and content management skills, ensuring growth for individuals and impactful results for the company.

Audio Shop Nepal Pvt. Ltd. has earned a reputation as a trusted provider of quality audio products and services, dedicated to delivering creative and reliable solutions that enhance customer experience and drive business success.

Table 2.1 Organization Details

---------	------------------------

2.2 Organizational Hierarchy

Audio Shop Nepal Pvt. Ltd. follows a structured organizational hierarchy designed to support efficient workflow, collaboration, and decision-making. The company adopts a functional structure where responsibilities are divided based on areas of expertise, such as frontend development, website management, content creation, and customer relations. This approach ensures clear communication channels, accountability, and effective execution of tasks across different functions within the company.

Figure 2.1 Organizational Hierarchy of Audio Shop Nepal Pvt. Ltd.

- i. **CEO** – The Chief Executive Officer leads the company, oversees all operations, and makes strategic decisions for growth and development.
- ii. **Finance Manager** – Handles budgets, accounts, and financial planning.
- iii. **Sales and Marketing Manager** – Manages marketing campaigns, promotions, and customer engagement.
- iv. **Developer** – A lead technical role responsible for overseeing the development and implementation of website features
- v. **Workers / Interns** – Assist developers and designers with tasks such as content updates, testing, and design support.

2.3 Working Domains of the Organization

Audio Shop Nepal Pvt. Ltd. is a dynamic company specializing in audio solutions and digital services, focusing on enhancing customer experience and maintaining a strong online presence. The organization emphasizes delivering user-friendly, responsive, and visually appealing solutions tailored to the needs of its customers. Below are the key working domains of the company:

2.3.1 Web Development

Audio Shop Nepal Pvt. Ltd. is a dynamic company specializing in audio solutions and digital services, focusing on enhancing customer experience and maintaining a strong online presence. The organization emphasizes delivering user-friendly, responsive, and visually appealing websites tailored to the needs of its customers.

2.3.2 Mobile-Responsive Design

The company ensures that its website is fully responsive and optimized for mobile devices. Using HTML, CSS, JavaScript, and WordPress page builders, the website provides seamless user experiences across smartphones, tablets, and desktops, ensuring accessibility and consistent performance.

2.3.3 Content Management

Audio Shop Nepal leverages WordPress as its primary content management system, enabling efficient creation, organization, and updating of website content. Pages, posts, menus, and media are managed to provide structured, visually appealing, and up-to-date information for visitors, improving engagement and user experience.

2.3.4 E-Commerce and Digital Sales Integration

The website integrates product catalogs and digital sales for audio equipment using WordPress plugins like WooCommerce. This allows the company to manage products, pricing, and customer orders efficiently, streamlining online sales and improving customer interactions.

2.3.5 SEO and Performance Optimization

The company ensures the website is optimized for search engines and performance. Techniques such as image optimization, caching, responsive design, and SEO-friendly content strategies enhance visibility, attract potential customers, and provide smooth navigation.

2.3.6 IT Support and Maintenance

In addition to development, Audio Shop Nepal provides ongoing website maintenance, including theme and plugin updates, design improvements, and security enhancements. This ensures the website remains reliable, secure, and functional at all times.

2.3.7 Domain and Hosting Services

In addition to our premium selection of musical gear, **Audio Shop Nepal** maintains a high-performance e-commerce platform to ensure our catalog is always accessible to musicians. Our online store is designed for **reliability and security**, offering a seamless browsing experience that caters to both casual hobbyists and professional studios looking for high-end audio solutions.

2.4 Description of Intern Department/Unit

During my internship at **Audio Shop Nepal Pvt. Ltd.**, I was placed in the **Frontend Development Unit**, a core division of the company's web services team. This unit is responsible for designing, developing, and maintaining the user interface of the main company website using WordPress. The team focuses on creating responsive, visually appealing, and user-friendly interfaces that provide smooth navigation and a positive experience for all users.

As an intern, I had the opportunity to work under the guidance of experienced developers and gain hands-on experience with WordPress theme customization, page building, content management, and frontend optimization. The department follows collaborative development practices including design reviews, planning sessions, and version control. This experience strengthened my technical skills and exposed me to professional workflows in a real-world website development environment.

Table 2.2 Internship Duration Details

Office Hour	11 A.M to 7:30 P.M
Working Days	Monday - Friday

Position	Frontend Developer (Wordpress)
Mentor	Roshan Bastakoti

2.5 Literature Review

In the evolving landscape of web development, frontend frameworks and content management systems play a crucial role in managing user interfaces, content presentation, and seamless interaction with backend systems. Among these, **WordPress** has emerged as a prominent platform for frontend web development, known for its ease of use, flexibility, and extensive ecosystem. This literature review highlights the foundational concepts and scholarly insights surrounding WordPress-based frontend development, with a focus on practical applications, methodologies, and industry relevance.

WordPress follows a modular architecture that separates themes, plugins, and content management, making it easier to design and maintain complex websites (Mullenweg & Little, 2020). **Themes** define the visual appearance and layout of a website, **plugins** extend functionality, and the **WordPress dashboard** enables content management without requiring extensive programming knowledge. This separation supports efficient development and enhances maintainability.

Studies on WordPress emphasize its effectiveness in rapid frontend development due to built-in features such as customizable themes, pre-built templates, responsive design options, and plugin integrations. For example, WordPress page builders like Elementor and Gutenberg allow developers and designers to create dynamic layouts without writing extensive code (Smith, 2023). This abstraction reduces development time while maintaining high-quality user interfaces.

The use of WordPress templates and theme customization provides flexibility for small to medium-scale projects, where layouts and content can be easily adapted to changing requirements. While advanced frontend frameworks like React or Angular offer component-based architecture, WordPress provides a practical, accessible solution for managing website content and UI, especially for projects focused on client-side presentation.

Integration between WordPress themes and plugins enables dynamic rendering of content. Custom fields, widgets, and shortcodes allow developers to display data, media, and interactive elements seamlessly on the frontend. This approach ensures a responsive and engaging user experience without requiring a separate frontend framework.

Security is an important consideration in WordPress frontend development. WordPress incorporates built-in security features, including user role management, input validation, and regular updates to prevent vulnerabilities. Best practices, such as keeping themes and plugins updated and using secure hosting, align with current industry standards in safe web development (OWASP, 2024).

Furthermore, WordPress's compatibility with agile development practices, version control tools like Git, and collaborative workflows supports team-based projects. Its modular structure, extensive documentation, and strong community support make WordPress a preferred platform in both educational and professional settings.

In summary, WordPress provides a comprehensive, flexible, and efficient approach to frontend web development. Its emphasis on usability, responsive design, dynamic content management, and community-driven support makes it an ideal platform for both learning and professional implementation. Continuous updates, plugin development, and community contributions further enhance its capabilities, solidifying WordPress's position as a leading solution for modern frontend development.

Chapter 3: Internship Activities

3.1 Roles and Responsibilities

During my internship in **WordPress Frontend Development** at **Audio Shop Nepal Pvt. Ltd.**, I participated in a range of duties and activities that contributed to the development and maintenance of the company's main website. They are listed as follows:

- i. **Website Layout Design and Customization:** Designing and customizing website layouts using WordPress themes and page builders to create visually appealing and responsive interfaces.
- ii. **Content Management:** Creating and organizing website content including pages, posts, menus, and media, ensuring structured and engaging presentation for users..
- iii. **Theme and Template Integration:** Customizing WordPress themes and templates to dynamically display content, ensuring a seamless user experience across the website..
- iv. **Plugin Implementation and Configuration:** Installing, configuring, and customizing WordPress plugins to add functionality such as contact forms, product catalogs, and interactive features..
- v. **User Interface Enhancements:** Improving website usability and navigation, optimizing menus, widgets, and interactive components for better user experience..
- vi. **Debugging and Testing:** Identifying and resolving frontend issues, testing website performance, responsiveness, and cross-browser compatibility to ensure smooth operation.
- vii. **Code and Design Maintenance:** Writing clean HTML, CSS, and JavaScript code when needed, maintaining modular and reusable design elements, and following best practices for frontend development.

3.2 Weekly Log

Following table shows the weekly activities performed throughout the internship period in Django Development (Backend).

Table 3.1 Weekly Log

Week	Activities
Week 1	i. Set up WordPress environment, installed themes/plugins, and configured site settings. ii. Explored website structure, templates, layouts, and UI components. iii. Reviewed navigation, widgets, and overall page hierarchy
Week 2	i. Designed and updated homepage using Elementor/WPBakery. ii. Configured header, footer, and navigation menus. iii. Managed basic content updates (text, images, media).
Week 3	i. Created and updated pages for products, services, and contact. ii. Managed product listings and website content. iii. Customized layouts and UI elements using CSS and page builders.
Week 4	i. Customized themes, templates, and page layouts. ii. Improved UI consistency across pages. iii. Optimized images and formatted content for better display.
Week 5	i. Added product details, images, and descriptions. ii. Improved responsive design for mobile and tablet devices. iii. Refined UI elements (menus, widgets, sidebars).

Week 6	i. Performed image optimization and improved page loading speed. ii. Tested website across different browsers. iii. Implemented UI improvements based on feedback.
Week 7	i. Developed blog, testimonial, and FAQ sections. ii. Managed dynamic content using widgets and shortcodes. iii. Enhanced user interface and page structure.
Week 8	i. Integrated inquiry/contact forms using WordPress plugins. ii. Configured form layouts and ensured proper styling. iii. Tested forms and improved user experience
Week 9	i. Assisted in SEO optimization (meta titles, descriptions, keywords). ii. Improved content structure for better readability. iii. Refined layouts and UI elements based on feedback.
Week 10	i. Developed gallery/portfolio section for showcasing products. ii. Updated product pages with optimized media. iii. Improved navigation for better user experience...
Week 11	i. Refined UI/UX elements across all pages. ii. Updated layouts and templates based on team suggestions. iii. Supported overall website maintenance and updates.
Week 12	i. Conducted final testing of all pages and features. ii. Fixed minor bugs, layout issues, and formatting errors. iii. Documented work and assisted in project handover.

3.3 Description of the Project Involved During Internship

During my internship at **Audio Shop Nepal Pvt. Ltd.**, I contributed to the **front-end development, content management, and maintenance** of the company's main website, which serves as the primary platform for showcasing products, services, and customer

interaction. The website was developed using WordPress with a focus on delivering a responsive, user-friendly, and visually appealing experience.

The website was structured to provide clear navigation, well-organized product and service listings, and an intuitive interface to enhance user experience. My role primarily involved designing and updating website pages, customizing themes and layouts, managing content, optimizing images, and supporting overall website functionality.

The key aspects of the project included:

- i. **Website Design and Layout Customization:** Designed and updated website pages using WordPress page builders (Elementor/WPBakery). Customized layouts, navigation menus, and UI elements to improve usability and maintain consistency across different devices.
- ii. **Content Management and Dynamic Updates:** Managed product listings and website content, including text, images, and media. Utilized WordPress features such as widgets, plugins, and shortcodes to effectively display dynamic content.
- iii. **Theme and UI Customization:** Customized themes, templates, and front-end elements to enhance visual appearance and improve overall user experience.
- iv. **Image Optimization and Content Formatting:** Customized themes, templates, and front-end elements to enhance visual appearance and improve overall user experience.
- v. **Basic SEO Optimization:** Assisted in implementing SEO practices such as adding meta titles, descriptions, and keywords to improve search engine visibility.
- vi. **Website Maintenance and Updates:** Supported regular website maintenance by updating content, fixing layout issues, and ensuring smooth functionality across all pages.
- vii. **Team Collaboration And continuous Improvement:** Participated in team discussions and incorporated feedback to improve design consistency, responsiveness, and usability.
- viii. **Finalization and Documentation:** Conducted final testing, resolved minor issues, and documented website structure, theme customizations, and plugin configurations to ensure smooth handover and future maintenance.

3.4 Tasks/Activities Performed

Throughout the internship, I contributed to the **front-end development, content management, and maintenance** of the main WordPress website. The major tasks and activities I was involved in are as follows:

- i. **Requirement Understanding and Setup:** Explored the WordPress environment, including themes, plugins, page layouts, and website structure to understand the overall workflow and content organization.
- ii. **Website Design and Page Development:** Designed and updated website pages using WordPress page builders (Elementor/WPBakery). Customized layouts, navigation menus, and UI elements to match the company's requirements.
- iii. **Content Management and Dynamic Updates:** Managed product listings and website content, including text, images, and media. Used widgets, plugins, and shortcodes to display dynamic content effectively
- iv. **Theme and UI Customization:** Customized themes, templates, and front-end elements to improve visual appearance, layout consistency, and overall user experience.
- v. **Image Optimization and Content Formatting:** Optimized images and formatted content to enhance page performance, loading speed, and readability.
- vi. **Basic Seo Optimization:** Assisted in implementing SEO practices such as adding meta titles, descriptions, and keywords to improve search visibility.
- vii. **Website Maintenance and Issue Fixing:** Identified and fixed layout issues, improved UI elements, and supported regular website updates and maintenance
- viii. **Reporting and Documentation:** Documented theme customizations, plugin configurations, content updates, and workflows to support future maintenance and improvements.

Chapter 4: Conclusion and Learning Outcomes

4.1 Conclusion

My time as an intern at **Audio Shop Nepal Pvt. Ltd.** has been an extremely enriching experience that significantly contributed to my growth as a **WordPress Front-End Developer**. Working on the company's main website allowed me to strengthen my skills in designing and updating website pages, customizing themes and layouts, managing content, and improving overall user interface design.

Throughout the internship, I gained practical exposure to real-world development workflows and collaborated with team members to enhance website functionality and design. I received constructive feedback that helped me improve my understanding of building responsive, user-friendly, and visually consistent websites. I also contributed to important features such as content updates, product listings, layout customization, and UI enhancements.

While working on the website, I addressed challenges related to layout consistency, responsiveness across devices, image optimization, and content formatting. These experiences improved my problem-solving abilities and helped me understand the importance of user experience, clean design, and regular website maintenance.

Although my role was focused on front-end development and did not involve backend processes, my contributions to website design, content management, and ongoing updates made this internship highly valuable. I am grateful for the guidance and support provided by the team at **Audio Shop Nepal Pvt. Ltd.**, and this experience has increased my confidence in working in professional web development environments.

.

4.2 Learning Outcome

Throughout my internship at **Audio Shop Nepal Pvt. Ltd.**, I had the opportunity to bridge the gap between academic knowledge and real-world web development practices. I significantly enhanced my practical skills in **WordPress front-end development**, particularly in designing and updating website pages, customizing themes and layouts, managing content, and working with plugins to display dynamic content.

By contributing to key website features such as responsive layouts, content updates, product listings, and user interface improvements, I developed a deeper understanding of building user-friendly and visually consistent websites. I also gained hands-on experience in optimizing images, formatting content, and supporting overall website performance and maintenance.

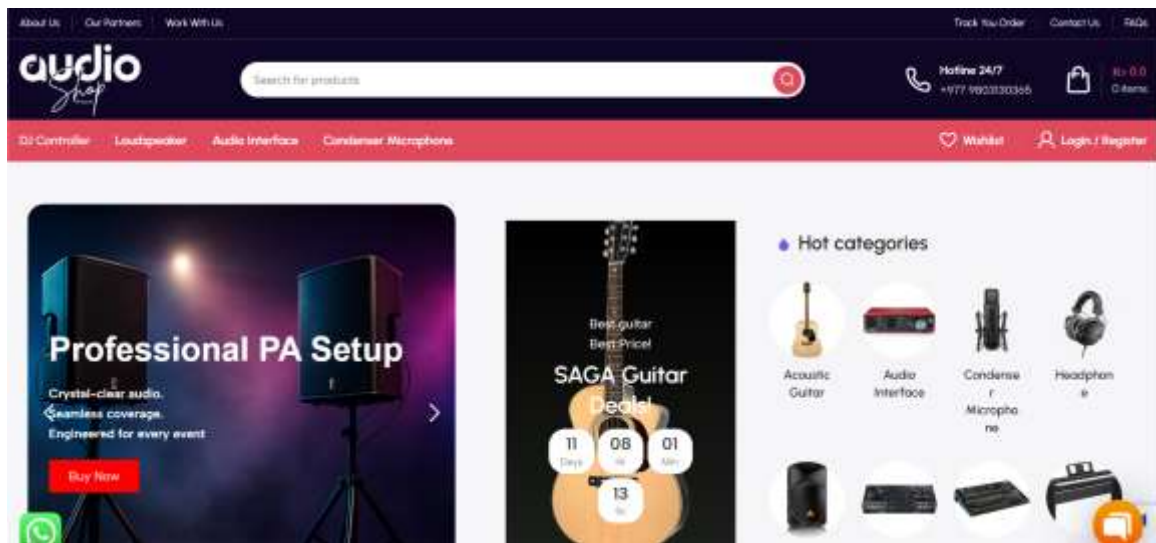

Working in a team environment helped me improve my communication and collaboration skills. I became more confident in identifying and resolving layout issues, improving responsiveness across devices, and ensuring consistency in design. This experience also helped me understand the importance of clean design, structured content, and maintaining a smooth user experience.

Overall, the internship strengthened my foundation in web development and provided valuable insight into professional workflows in WordPress-based projects. It also clarified my career direction in front-end development and boosted my confidence to work on real-world website projects in the future.
